(54) Title: DATA RECEIVING METHOD AND TRANSFERRING METHOD FOR DATA LINK LAYER

(57) Abstract: The present invention discloses a data transmission and receiving method at a data link layer for use in a home network system based on a living network control protocol. The data receiving method at the data link layer of a protocol that consists of a physical layer, a data link layer, and an upper layer, includes the steps of: receiving data from the physical layer; storing the received data in a packet buffer (S52); deciding whether new data has been received within a predetermined data allowable interval time since last data is received (S53); and based on a result of the first decision, completing receiving the data (S54).
